### CULTURE REPORT

Specimen Type : **URINE AEROBIC**

Direct Smear : No pus cells  
(Gram's Stain)

No bacteria seen

Report : No growth in culture

#### Comments:

Approved By : Dr.A.Kayalvizhi M.Phil, Ph.D.,

Released Date : 17/05/2026 18:29

\* Bacterial Identification done by Proteomic Studies (MALDI TOF / MS - Biotyper)

Results related only to the item tested

End of Report

Dr.A.Kayalvizhi M.Phil, Ph.D.,  
Senior Microbiologist

R.Dhanalakshmi M.Sc.  
HOD Microbiology

M. Mani M.Sc., (Medical Microbiology)  
Chief of Laboratory Service

All investigations have their Limitations which are imposed by the limits of sensitivity and specificity of individual assay procedures as well as the specimen received by the laboratory. Isolated Laboratory investigations never confirm the final diagnosis of the disease. They only help in arriving at a diagnosis in conjunction with clinical presentation and other related investigations. Report may vary depend on technology. Value of two technologies are not comparable.
